

Evinrude 3 + 2year Warranty

Telwater will now be offering an Australia wide additional 2 years factory backed warranty on top of your existing 3 year Evinrude warranty. This provides the end consumer with a total of 5 years factory backed warranty on the complete range of outboard motors. *(Excludes commercial.)*

The additional two years of warranty give the same comprehensive warranty coverage as Evinrude's standard 3 year manufacturer's warranty (including labour) for failures caused by defect in material or factory workmanship. The 2 year warranty extension will terminate upon failure to meet any of the Warranty Conditions.

To receive the bonus warranty, this policy supersedes current Evinrude "Operators Maintenance Guidelines" in Australia

Telwater Warranty Conditions to attain extended Warranty:

- The Evinrude pre-delivery inspection process for the outboard must be completed and documented. Warranty coverage becomes available upon registration of the product by the Dealer on Bossweb and also the online Telwater system.
- Telwater warrants its Evinrude outboard engines sold by authorised dealers throughout Australia. This includes all Genuine parts and accessories including but not limited to propellers, gauges, oil tanks, remote controls, wiring and key switches that, installed by an authorised OE distributor/Dealer at the time of delivery of the product bear the standard BRP limited warranty for Evinrude genuine parts and accessories.
- To receive the additional 2 years warranty an authorised Evinrude technician must adhere to:
 - Maintenance Guidelines
 - Genuine Evinrude oils and parts must be used.
 - Customers must retain all maintenance records/invoices. The Evinrude servicing agent must also log the maintenance on-line with Telwater.

Warranty Period Coverage:

Provided that the extension Warranty Conditions have been met the additional 2 Year warranty coverage will commence once the product's standard limited warranty period (3 years) has expired. The total duration of the coverage will be five (5) years. Unexpired warranty coverage can be transferred to a subsequent purchaser upon proper re-registration of the product. The subsequent purchaser will require all logbook maintenance records and invoices.

Modification/Alteration:

Any Products that have been modified or altered from their original production configuration will be excluded from any Telwater warranty coverage. The addition of, or replacement with, parts or accessories not approved by Evinrude, or not installed by an Authorised Evinrude Service Centre, will be cause for your 3 + 2 Evinrude warranty to be void. This may also be applicable to your standard 3 year warranty.
