Product Safety Recall

Telwater Pty Ltd
Savage Fiberglass 645C, 655C and 655C Hard Top

All vessels manufactured between Feb 2012 – Oct 2016

A list of potentially affected HIN’s (Hull Identification Numbers) are listed within the recall notice at www.productssafety.gov.au and the Telwater website www.telwater.com

DEFECT: The bow section of the fiberglass hull structure may show signs of gelcoat crazing below the cabin area of the vessel. This may weaken over time to a point where the fiberglass structure could crack.

HAZARD: In certain situations, the hull may crack causing water intrusion and possible submersion causing injury or death.

What should Consumers do: Consumers should immediately stop using their vessel and make a booking with their Local Savage dealer for the required product inspection and assessment.

Contact details: Locate your nearest Savage dealer by visiting www.savageboats.com.au or email recall@telwater.com.au or call +61 (7) 5585 9898 during office hours.
